

## RoHS Directive Applicatory Estimate

With reference to 2002/95/EC Directive dated 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment here following the next deadlines of CAREL RoHS Roadmap till the full RoHS adaptation that will be completed within 1<sup>st</sup> July 2006.

We would underline that internally we have completed all the planned activities, in particular: materials selection, equipment selection, setting up of the production processes and check of quality/reliability of the adopted solutions, with the collaboration of third party (multinational company working in the field of welding). We're ready to start with lead free compliant production lines but we've to postpone RoHS production because we are not completely supported by our suppliers.

AIR-CONDITIONING PRODUCTS	REFRIGERATION PRODUCTS	HUMIDIFICATION PRODUCTS
<b>RoHS production within the end of February 2006:</b>		
- pCO <sup>3</sup>	- powercompact - plug-in	
<b>RoHS production within the end of March 2006:</b>		
- μC <sup>2</sup> - μC <sup>3</sup> - pCO <sup>1</sup> - pCO OEM - pCO <sup>XS</sup> - pCO <sup>E</sup> - pCO terminal pGD - Probes - e-drofan	- μRack - Ir33/Ir33 DIN - MasterCella Split - MasterCella (MTC*) - MasterCella 2 (MD33*) - MPX - Display Thermotimer (TTDISPL*)	- Controller for humiSteam - humiSteam
<b>RoHS production within the end of April 2006:</b>		
- pCO <sup>C</sup> - Driver EVD400 - WEBGate - FCS - MCHRTF	- MasterCase 1,2	- Other Controllers for Humidifiers - Other Humidifiers
<b>RoHS production within the end of May 2006</b>		
- μAC - ARIA - Universal Ir	- I/O Management module - LCD thermometer - powersplit - Datalogger - RTA Electronic thermostat - IRDR	- Compact Steam

We inform you that for the following products RoHS conversion is not feasible:

AIR-CONDITIONING PRODUCTS	REFRIGERATION PRODUCTS
- Gateway - pCO <sup>2</sup> - pCO <sup>B</sup> - pCOI - PCOT - Driver EVD100/EVD200/EVD300 - μchiller - μchiller compact - Macroplus - Macrobase/Chillbase - Fancoli CF	- S90 - CR72 - IR32 - IR96 - PlantWatch - Thermotimer

We would like to underline this is a precautionary planning; our target is to supply products in accordance with RoHS Directive even earlier the date indicated above.

Brugine, January 18 2006

CAREL S.p.A.  
President  
Luigi Rossi Luciani
